Choose a combination of 3 of the 8 different courses. Guide your rider carefully over the many obstacles as carefully as possible. You must jump over water, cars, vans, trucks and buses etc. Go very carefully over rough ground as it is dangerous to jump. Go quickly over tires, hedges and barrels so as not to get stuck. Drive slowly when near brick walls, screen walls and gates. This is a very professionally written game with **great graphics** \$8.75

#A7222 ELEKTRAGLIDE Disk. Very well done motorcycle racing game. Very similar to the hard to find Pole Position™ racing game. Same "forward roadway view" style with a startling twist. As you race through tunnels, fork bends and junctions watch out for the deadly "smart globes" that chase you and oil slicks that send you spinning. As you roll on, time is running out. Hit the gas fast to make it to a time tunnel. **Great graphics and soundtrack.** Straddle the saddle and head out with **ELEKTRAGLIDE** the first fantasy racing game. \$7.50

PRODUCTIVITY SOFTWARE

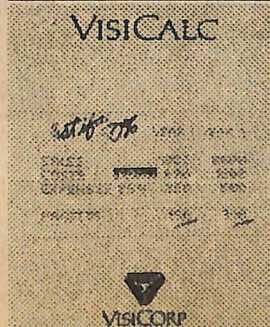

#DB123 SUPER DATABASE 1-2-3 by I.M.P. Software. One of the most powerful uses of any computer is the database application. Keep track of related items such as Mailing lists, tax records, family tree or any other database of your choosing. Unique program creates these applications that once written run on their own without loading Super Database 1-2-3. Imagine the possibilities with a software package that writes other stand-alone software packages! Super Database is so versatile that its different applications are virtually limitless. Menus are used extensively. The manual is almost unnecessary. Applications that can be developed include inventory, customer and personnel files, invoicing, production tracking, order entry and much more! Once the unique application program is produced, Super Database itself is put aside and the new application program is used. When a new application program is needed, the Super Database disk is brought out again to write it. Use your computer to its fullest potential to help keep track of your busy life!

#A4998 VISICALC SPREADSHEET BY VISICORP. Disk. One of the most popular spreadsheet programs on any computer is now available at fantastic savings from American Techna-Vision. Unleash the computing power of your Atari 8-bit computer. Calculate everything from home finances to high powered financial projections. Cell based program allows you to set up "templates" to keep tabs on an unlimited number of projects. Once you are familiar with the program you can write your own templates to keep an electronic checkbook, keep track of family finances and thousands of other uses. Cell rows and columns can be programmed in dozens of ways to keep running totals of complex calculations. But the power of Visicalc lies in the fact that the computer remembers the formulas and calculations you use as you solve a problem. If

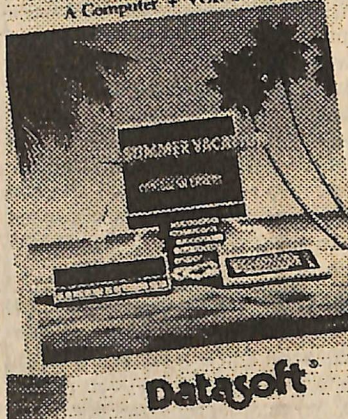

you change a number you have previously entered into the worksheet, all other related numbers on the sheet change before your eyes as Visicalc automatically recalculates all of the relevant formulas. Recalculation makes Visicalc a very powerful planning and forecasting tool. Not only can you correct mistakes and omissions, you can also play "what if" and examine various alternatives. Numerous applications in science and engineering. Our local library lists 12 separate books filled with hundreds of preprogrammed templates for use with Visicalc. **\$19.95**

JOYSTICK

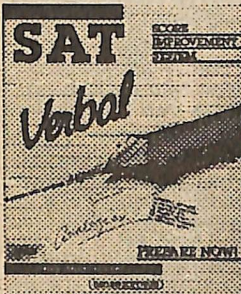

#CX839 SKY WRITER CARTRIDGE by Atari. Ages 6 - 14. Sky Writer is a fun and creative way for young people to learn how to make compound words. Using the computer keyboard or a joystick, the player flies his or her plane and links the words in two different clouds to form a compound word that fits the definition at the top of the screen. At the higher levels, the game gets more difficult, and it takes some practice and skill to avoid the rain clouds!!! Piloting the Sky Writer plane is not just a fun way to learn basic word structure - it will help build vocabularies too!! **\$9.95**

GRANDMA'S HOUSE

#S8765 GRANDMA'S HOUSE Disk by Spinnaker. Ages 4-8. Grandma's house is their very own playhouse - fill it with wonderful things from your trips to magical places. It helps children learn to design and create within a unique format. It lets them explore a wide variety of environments and it promotes familiarity with basic computer functions. What could be more fun than a visit to **GRANDMA'S HOUSE**? It's a game that lets children create their own perfect playhouse by furnishing it with wonderful things from the magical places they'll visit. They'll find lots of unusual things to bring back - maybe a bathtub from the furniture store, a parking meter from the city, even a tiger from the jungle that would look great in the living room! Famous Spinnaker quality! **\$8.75**

#A4489 SAT VERBAL Disk by Hayden Software. Verbal module provides tutorials, drill and analysis for high school students studying for the S.A.T. College placement test. The Vocabulary Section provides a thorough review of antonyms, analogies and sentence completions, as well as an on-screen dictionary of 1000 words. The Reading Comprehension Section offers strategies and practice in reading passages and responding to questions about the material just read. This unique system displays all test material on the screen of your computer - no need for constant referrals to a manual or text. Program uses tutorials, also totally on-screen, to explain not only the correct answers to problems, but also the very best way to attack other problems of the same general nature. **\$17.95**

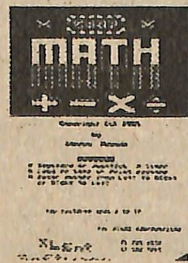

#A6766 FACEMAKER CARTRIDGE by Spinnaker. Ages 4-12. Lets children create their own funny faces on the screen. Once a face is completed, children will giggle with delight as they make it do all kinds of neat things: wink, smile, wiggle its ears, or whatever their imagination desires. **FACEMAKER** helps children become comfortable with computer fundamentals such as: menus, cursors, the keyboard, simple programs and graphics. It also helps improve a child's memory and concentration. Facemaker is three games in one. The first game presents the child with a blank face and asks the child to complete the face. The second game takes the completed face and lets the child make it smile, wink, frown or wiggle its ears. The third game asks the child to repeat the sequence of faces shown on the screen. . . . **\$8.75**

#A3359 UP FOR GRABS CARTRIDGE by Spinnaker Software. Ages 8 to Adult. A fast-paced, exciting word game reminiscent of Scrabble™. You've got to think fast. Because you have to grab letters off the rotating cube before someone else does. But not so fast that you don't plan ahead. Those gray areas are double-letter scores. And letters that don't make words count against you. Up to four people can play. Or you can play alone against the computer. Helps exercise spelling and vocabulary skills while teaching you to visualize words and arrange them spatially. It also sharpens your ability to plan strategies and make quick decisions. **\$8.75**

#A6756 ALPHABET ZOO CARTRIDGE by Spinnaker. For ages 3 to 7. It's a race. It's a chase. It's **ALPHABET ZOO**. It teaches children the relationship of letters and sounds. And also how to spell while they're having fun. There's laughter and learning at every turn as kids race through the maze after the letters that fit the picture on the screen. Be quick though. The letters may move and time is running out. Alphabet Zoo is two letter skill games in one. In both, children develop essential vocabulary skills as they race throughout the maze after letters that fit the picture on the screen. Different playing levels allow children to concentrate on vowels or consonants, or to be challenged by the entire alphabet. Children also strengthen their spelling skills. Colorful graphics and great sound help your child learn. **\$8.75**

#S2983 C.A.M.P. Disk - Computer Assisted Math Program by XLEnt Software. Help improve your child's math skills. This drill program is designed to help elementary school kids practice addition, subtraction, multiplication and division. Problems are presented in both the vertical and horizontal form. You select the size of the numbers, whether a timer is used, and which direction answers are entered in. . . left to right or right to left. A joystick can also be used to input your answers. Drill sessions can be saved and replayed.

Computer Assisted Math Program . . . \$10.00

#A6777 FRACTION FEVER CARTRIDGE by Spinnaker Software. Ages 4-12. Helps develop an understanding of what a fraction is, of relationships between different fractions, and the relationship between numerical and visual representations of fractions. All while giving the fast-paced action of an arcade game. As you hop along on your pogo stick, you'll be searching for a fraction that matches the one at the top of the screen. Spot the right fraction and ride to higher floors. Zap the wrong ones along the way and pile up points. Make learning fun! **\$8.75**

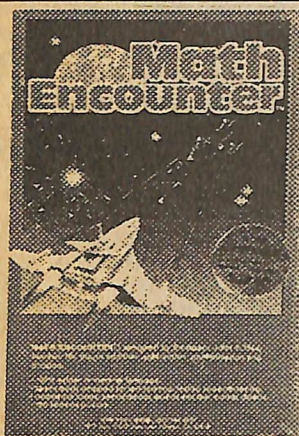

#A3363 ALF IN THE COLOR CAVES CARTRIDGE by Spinnaker Software. Ages 3 to 6. Alf is a colorful little character with an exciting journey ahead of him. Help him get through the color caves to the color room at the bottom, where he dances to his own special music. Children can have hours of learning fun - and ALF's special activities work-book further challenges their minds with lots of colorful projects! **\$8.75**

#S9239 SONS OF LIBERTY Disk by SSI. Famous SSI Quality war game. Fight the war that gave America her independence and her Constitution . . . a war that changed the history of the World! Using their considerable talents in wargaming, they have faithfully re-created the look and feel of that historic conflict, where splendidly dressed British redcoats fought upstart rebels in stiff lines and columns. Three epic battles make up this great wargame by the masters at SSI. \$19.95

#S8456 SIX-GUN SHOOTOUT Disk by SSI. A game of man-to-man combat between characters in the American West of the 1850-1890 period. Each turn constitutes approximately ten seconds of real time, and each space on the game board seen on the screen represents about ten feet of distance. The game provides ten scenarios, each typical of some aspect of life in the West. Among the options of play are bank robberies, jail breaks, shootouts between legendary gunmen, and Indian raids. Players have the option to change character names and abilities within a scenario. In view of the large number of available scenarios, this feature adds considerable flexibility to the game. . . \$14.95

#A2925 WARGAMES Disk. Based on the hit MGM/UA Movie! War Games . . . is it a game, or is it real? It's up to you to save the world from nuclear destruction. U.S. Strategic map displays the scope of the crisis. Fire your ABM's against enemy missiles! Scramble your jet patrols to intercept enemy bombers. Your sub patrols cruise to attack enemy wolf packs. \$12.50

#S8963 NAM Disk by SSI. It has been called a political war, and it was, at some levels. But there were no politics where the bullets whined. Here, the face of battle revealed its countenance with the same confusion as it had in the Ardennes, the same strength as at Shiloh, the same madness as at Tarawa. In the bottom eschecons, down where the bullets were, it was a real war. **NAM** centers on those battlefields where the bullets really existed. Where friendly forces meet enemy forces in battle - the real bottom line is to survive. \$19.95

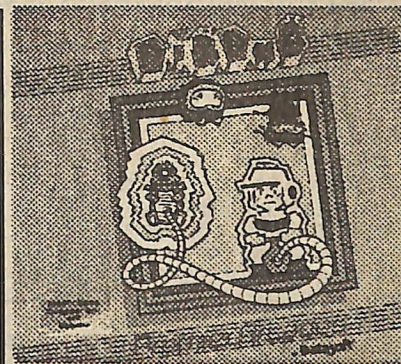

#S8826 CYTRON MASTERS Disk by SSI. A fantastic game from SSI that combines the fast-paced action and pure excitement of arcade games with the challenge and sophistication of strategy simulations. This game is packed with fast-paced action, animation, and sound effects. In fact, it is so fast that three speed levels had to be incorporated to allow you a chance to learn the game. Of particular interest is the special missile, anti-missile scenario where you practice to control two of your most important weapons. By itself, this scenario makes for an interesting diversion. But when you consider the game in its entirety, it truly stands head and shoulders above its competition in fun and excitement. \$19.95

Saracen

#A5776 SARACEN Disk by DataSoft. Action-strategy arcade style game featuring 100 game levels. Player-controlled level selection. Choice of joystick or keyboard action. During the Holy Crusades, the brave, adventurous young soldiers of the Christian world travelled to the Holy Land to fight the Saracens. As Llan the Crusader, you must make your way through mazes of stone walls that are patrolled by fanatical guards. Your goal: destroy the Chief of the Saracens. Your only weapon is a longbow; but when your arrows shoot straight and true, they have the power to crash through walls or start a chain reaction of explosions. Mazes are booby-trapped with bombs; blue-steel balls thunder heavily after you; and locked doors present a challenge to your wit and ingenuity. **\$9.95**

THEATRE EUROPE

#A8775 THEATRE EUROPE Disk by DataSoft. A War Simulation Strategy Game. The battlefield is Europe and you are in control. Theatre Europe simulates the first 30 days of warfare between the NATO and the Warsaw Pact. Whether it is the final conflict depends on you. This ultimate game puts you in the position of Commander-in-Chief of either the NATO or Warsaw Pact armies. At your command is a vast array of conventional forces and weapons. Take part in each battle as a fighter pilot, tank commander, helicopter pilot, or ground soldier. A chemical or nuclear strike is always an alternative, but beware the consequences: This is the nuclear age and the survival of Europe is in your hands! Three levels of difficulty. **\$12.50**

#A3939 BISMARCK The North Sea Chase. Disk by DataSoft. A Battleship Simulation / War Strategy Game. Includes Swordfish torpedo plane simulator. Recent articles detail the discovery of this German battleship on the Ocean floor. Discover the history behind this massive dreadnought, the Bismarck. Bismarck's guns were powerful enough to hurl automobile-sized shells for miles. With such awesome firepower, can she invincibly prow the sea lanes? Can Britain stop her? This is a taut, multi-level game featuring full joystick control; real-time action with variable speed and difficulty levels. When it's time for action, you direct the anti-aircraft and heavy guns; launch torpedo attacks and manage damage control. With options to control either The Royal Navy or the infamous German battleship, Bismarck provides an abundance of intriguing, sharp-edged game play. **\$9.95**

#A8429 NAPOLEON IN RUSSIA (Borodino 1812) Disk by DataSoft. Strategy War Simulation featuring a historically accurate battle map. Variable skill levels with single or dual player modes. Replay Napoleon's battle at Borodino vs. the Russian Army in 1812. Authenticity makes this game extremely intriguing. The Map is based on the original 1839 Russian Military re-enactment of the battle and on photographs commissioned by Tzar Nicholas to commemorate the 100th anniversary of the action. You can either play Napoleon's Borodino plan or devise your own. Game features include command over infantry, cavalry, and artillery divisions; scrolling battle map with prominent terrain. Includes several options covering fatigue, morale levels, battle speed and more! **\$9.95**

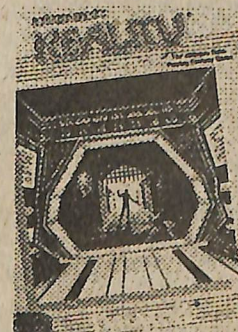

#A8235 221-B BAKER ST. 64K Disk by DataSoft. A Graphics Mystery Adventure with voice Synthesis. One to four players or teams. Animated on-screen characters. Sherlock Holmes, Dr. Watson, Irene Adler and Inspector Lestrade must solve thirty of the most difficult and intriguing cases to ever test their abilities. The detectives are armed with secret codes, allowing them to receive exclusive information from fifteen locations around the city. While working to solve the crime, each sleuth is trying to break the others' codes in order to have access to more clues with less work. They can also change their own codes to throw the others off the track. The winner is the one who solves the mystery, returns to 221-B Baker Street with a badge, and announces the correct solution. **\$12.50**

#A3399 ALTERNATE REALITY the CITY. Disk. Kidnapped by an alien spaceship, you find yourself in a room with only one exit. Through this opalescent doorway is the City of Xebec's Demise. Overhead is a panel displaying constantly-changing numbers. At the moment you pass through, the numbers freeze. Whatever levels of Stamina, Charm, Strength, Intelligence, Wisdom, Skill and Wealth you begin your adventure with are determined at this point. Mystery and danger await you in the maze of streets. Be wary; not everyone is friendly! Eat and drink in taverns, where clues are often found in the hearty songs you hear. Battle deadly enemies, uncover marvelous treasures, and learn dark secrets. **\$12.50**

#A9868 ZORRO Disk by DataSoft. A 20-screen action-adventure game. Adventure-style screen-to-screen movement. Scavenger-hunt gameplay with swashbuckling duels. Team up with Zorro, Johnston McCulley's legendary masked crusader for justice and freedom! Fence your way through scenes of mystery and danger. Travel back and forth between the screens to reach your objective: rescue a pretty senorita from the clutches of wicked Sergeant Garcia. Help Zorro search for the crucial items that enable him to reach the Fort where the senorita is held captive. The "key" to the solution is in the Ole 6 Hotel. Figure out the secret to open the vault in the Wine Cellar. Brand the bull in the Livery Stable to collect the lucky horseshoe. Find and return the Mission Bells. Free innocent prisoners from Garcia's jail and more! **\$9.95**

#A3339 ALTERNATE REALITY the DUNGEON. Disk. The Ultimate Role-Playing Fantasy Game. Four levels of Dungeon to explore; multitudes of new monsters; quest upon quest; and strange forces, both evil and good, take you further toward your ultimate goal in the Alternate Reality series: return to Earth or seek revenge on your captors. Good deeds and a visit to the Dungeon chapel can help to redeem an evil adventurer. Make friends where you can, but beware: friends in one quarter can lead to foes in another! Second game in the Alternate Reality series. Three dimensional scrolling. Original music. Combined keyboard and joystick action. One-third more territory to explore than in The City. **\$12.50**

#A3444 TOMAHAWK Helicopter Simulation. 64K Disk by DataSoft. Features 3-D real-world display; Offensive and defensive flight maneuvers; ground attack and air to air interception. Day & Night vision systems; instrument-only flying for bad weather conditions. Selection of combat or training missions: four pilot-rating levels. A complete weapons system including rockets, guns and laser-guided anti-armour missiles. Tomahawk is a combat simulator that accurately re-creates the U.S. Army's AH-64A Apache, the deadliest chopper in the world. This advanced attack helicopter was built to fight and survive, day or night, in the toughest air-war skirmishes. Whether you're flying at tree-top level, or pulverizing tanks and aircraft with your lethal arsenal, Tomahawk gives you one tracer-hot mission after another!!! **\$12.50**

#B8622 CUTTHROATS Adventure disk by Infocom. You're about to get yourself into very deep trouble. You're the top diver on an island and the foremost expert on local shipwrecks. A band of the island's shadiest characters has a job for you, and you're the perfect choice. It's a simple business proposition: all you have to do is locate and salvage a fortune in sunken treasure. You stand to gain millions. However it could cost you your neck. Because to successfully recover the treasure, you'll have to survive the perils of diving in unknown waters - and the even greater danger of an untrustworthy crew. But none of that will stop you from taking the plunge. You're the type who believes that when stakes are this high, even when your odds are this low, it's worth running the risks of dealing with **CUTTHROATS**. \$9.95

#B6533 SUSPENDED Adventure Disk by Infocom. They said you would sleep for half a millennium - not an unreasonable length of time, considering you'd be in limited cryogenic suspension. Your body would rest frozen at the planet's nerve center, an underground complex 20 miles beneath the surface. Your brain, they told you, would be wired to a network of computers and operate at a minimal level, overseeing maintenance. And you would not awake, so they promised, until your 500 years had elapsed - barring, of course, the most dire emergency. Then you would be awakened to save your planet by strategically manipulating six robots, each of whom perceives the world differently. But such a catastrophe, you were assured, could not possibly occur. Sure. . . \$9.95

#A9552 ZORK 1 Disk Adventure by Infocom. Your greatest challenge lies ahead - and downwards. **ZORK 1** beckons you into a world fraught with danger and discovery. Using all the cunning you can muster, you'll plunge far below the surface of the earth in search of the incomparable Treasures of Zork. The adventure begins in front of a seemingly innocuous white house, but your explorations soon lead you into a vast underground universe that is faintly reminiscent of Alice's Wonderland - with a deadly twist. Threats and opportunities surround your search. During your amazing journey, you'll come face to face with creatures so outlandish, they defy description. And you'll wander through an underground domain so vast, with so many twists and turns, you'll find surprises ever time. \$9.95

#B8722 PLANETFALL Disk by Infocom. One of the most popular text adventures of all time. A giant best seller. The sign said "learn Valuable skills and Explore the Galaxy". Sure, you'll get a paycheck in the Patrol. But 32 credits, new underwear, and a pack of chewing gum every month isn't all you'll get out of it. You'll also be traveling to distant worlds you never imagined existed, earning the respect of your friends and family, and acquiring outstanding technical training that can get you a good job in later life. Sounds great . . . but what if you crash land in the first five minutes of **PLANETFALL**, you'll be confronted by the bizarre, the baffling and the inexplicable. Enjoy yourself, if you can . . . \$14.95

COMPUTER BOOKS FOR YOUR ATARI

#B180 HOW TO PROGRAM YOUR ATARI IN 6502 MACHINE LANGUAGE by Sam D. Roberts. Introduction to machine language for the BASIC programmer. Most people don't realize that BASIC commands like IF or THEN actually are sequences of commands in machine language. This introductory level book is meant for those who want to leave BASIC and go deeper into their computer. The 6502 microprocessor and its commands are the subjects of this book. Chapters cover number systems, digital concepts, stack operations, subroutines, comparisons between BASIC and machine language programs, branching and much more! ...

#B510 INSIDE ATARI BASIC by Bill Carris. Published by Atari. A valuable workbook for three distinct groups of people. First and foremost, for those who have never programmed any type of computer before, this book assumes no prior knowledge of programming or computer operation. It also assumes that you do not wish to spend the next ten years learning how computers work. Next, there are some of you who have used computers before but are new to ATARI BASIC. Each computer is different and this book allows you to skip over what is familiar and concentrate on specifics. Finally, there are significant parts of this book which will prove useful to seasoned programmers who are familiar with Atari computers but need quick references to color, GTIA, and other graphics modes.

#B2293 COMPUTE!'s FIRST BOOK OF ATARI GRAPHICS It all looked so simple . . . you were dazzled by the Atari's impressive graphics in the store. Then you eagerly unpacked the computer at home and quickly discovered that even crude pictures cannot be created without screenfuls of cryptic programming that seemingly have more in common with Sanskrit than English.

But there is hope. It's not really that hard-honest. This excellent 248 page book takes you from fundamental concepts through Advanced Graphics Techniques. Learn advanced techniques such as using Strings for Graphics Storage. Learn how to design custom graphics modes. Learn

how to design your own Character Sets, with an added bonus of "SuperFont", an excellent type in utility to redefine the Atari character set. The next chapter covers using these redefined characters to produce animation. This ability helps greatly in designing your own high speed basic games.

This book is a collection of dozens of the best articles and type in programs to appear in print. It will dazzle you, and forever change the way you program your Atari computer. . . . \$9.95

#B2294 COMPUTE!'s SECOND BOOK OF ATARI GRAPHICS.

Like COMPUTE!'s First Book of Atari Graphics, this book contains many articles and tools that Atari programmers will find extremely useful. And some full-fledged type-in graphics utilities that not only teach programming, but are also as exciting to use as commercial computer art software.

The included type-in graphic utilities "Screenbyter" and "Fontbyter" are designed to allow you to create, save, and add intricate graphic displays to your programs in a fraction of the time it would otherwise take.

But the book doesn't stop there. For instance, articles are included that: teach the beginners a simple way to add color to their programs, show the intermediate programmer how to use player/missile graphics, and help the advanced programmer protect memory from a BASIC program, as well as

many more, useful programs and articles.

As with all COMPUTE! publications, you'll find a wide range of easy-to-understand tutorials, and high quality programs collected for your use and enjoyment. If you already have COMPUTE!'s First Book of Atari Graphics, you know how useful it is; we know you will find this book just as valuable. And if this is your first COMPUTE! publication, you are in for some pleasant surprises. . . . \$9.95

#SD7378 COMBAT LEADER Disk by S.S.I. Combat Leader is a tactical game that simulates combat between elements of tank and mechanized infantry companies on the modern battlefield. It is a flexible game that can be played on different levels and can include many different elements, such as tanks, infantry fighting vehicles, infantry, machine guns, rifles, anti-tank weapons, and mortars. With this game, it is possible to simulate tactical combat in a wide variety of scenarios from the period of World War II to more modern times. This game is very interesting due to its complexity. . . . \$19.95

#SA6269 SHOWDOWN HOCKEY! Disk. Great new Hockey game by Aussemware. Move the joystick up to start the skater rushing toward the net. To deke the goalie attack past the face off circle. This is a well thought out, fantastic new game!!! 1 or 2 player competition (against computer opponents or 2 player head to head (skater on goalie). You control the shot, slapshot, Wristshot or Deke, whatever it takes to put one in the net. Showdown Hockey. . \$14.95

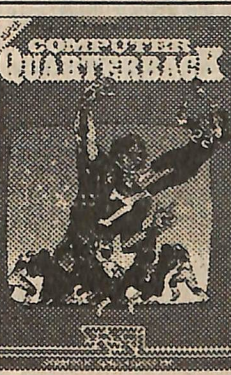

#SD7474 PHANTASIE II Disk by S.S.I. Role playing game. Ferronrah, an island of great beauty and magic, lies just south of the isle of Gelnor. Once a metropolis with a thriving trade industry and a major naval power, it now appears to be under some grave calamity. A mysterious cloud hangs over the island - and no one has left or entered the island since the cloud first appeared, 40 years ago. Now you, the brave adventurer must travel to Ferronrah to do battle with the evil sorcerer Nikademus. You leap to your feet and proclaim that your sword is like lightning and your spells will wither even Nikademus!! After such bravado are you ready? . . . \$19.95

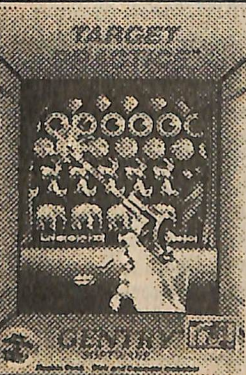

#SD2828 SPIDERMAN Disk. Graphics / Text adventure. While on your quest, great interactive graphics allow you to search in different rooms, attack creatures, and journey to different lands in order to solve the different mysteries. In the Spider-Man Adventure you must prove to the Chief Examiner that you can utilize the powers of Spider-Man. Your objective is twofold; to unlock the riddle of the Chief Examiner and to survive!! . . \$4.95

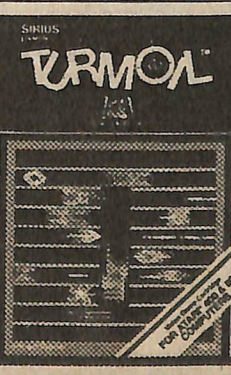

#SD7473 TIMEWISE Disk by Atari. A time management program. Organize your time by day, week or month in one simple step. For both planning and record keeping. Ongoing reminders, like classes, payment dates or appointments can be recorded for the whole year in a few easy steps. Recalling deadlines, meetings or personal events is as simple as pressing a few keys. And special dates like birthdays and holidays can be instantly accessed. Don't just try to manage dates. Manage your time. With Timewise . . . \$14.95

#SD3458 COMPUTER QUARTERBACK Disk by S.S.I. A real-time computer strategy football game. This game offers true realism in a very playable format. Two players compete by selecting plays and then watching the animated action of their teams clash on the gridiron. Faking, stunting, and shifting are all included in the play action. What sets this game apart is what goes on behind the exciting animated display. Reams of data sheets, months of analysis and all the sophisticated tools of systems simulation were used to create totally realistic outcomes for each play. Even if both players select the same plays repeatedly, each outcome will be unique. . . . \$19.95

#SD7346 TARGET PRACTICE Disk by Gentry Software (Formerly Shooting Arcade by DataSoft). Target Practice is the most colorful, captivating amusement park attraction on the four corners of the earth. Step right up and try your luck!! Win a cuddly bear for the little lady. It's easy!! Just pull the trigger and hold the gun steady while you try for stampeding elephants, waddling ducks and jumping bunnies. Ready, aim, fire!! But be careful . . 'cause when the bullets run out, so do you. Shoot a smile and win big. Fire at a frown and your bullets turn to blanks. Any way you play it, you'll get a bang out of Target Practice . . . \$12.50

#SD2889 TURMOIL CARTRIDGE by Sirius Software. Works with all 8-bit models. Imagine yourself being attacked from both sides by the most evil creatures ever to fly the unfriendly skies. You are piloting an inter-galactic fighter with the ability to blast seven enemies into cosmic dust at once. Now, picture a battle raging at a pace so frantic that even blinking your eyes could lead to disaster. If you are faster than a speeding bullet, if you can turn off the lights and be in bed before the room gets dark, then YOU are ready for the Turmoil Cartridge!! . . . \$4.95

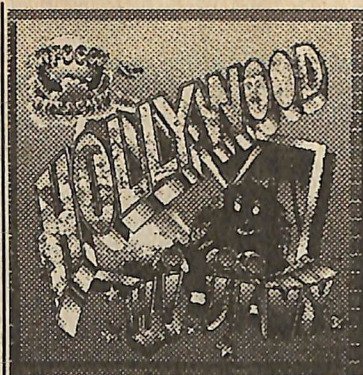

#SD8538 EPIDEMIC! Disk by S.S.I. When a meteorite - euphemistically referred to as a "Radar target" - crashes on land, it is found to have a very deadly hitch-hiker. A virus is activated and an epidemic immediately begins. If not controlled, the disease will completely destroy the population over a large region within eight to fifteen days. You are part of an international task force marshalling the world's resources and medical technology to escape this catastrophe. From your isolated command center in Antarctica, your shift - which will last between 15 and 30 days begins. You will be rated on how well you combat the explosively expanding epidemics with the finite resources available to you. \$19.95

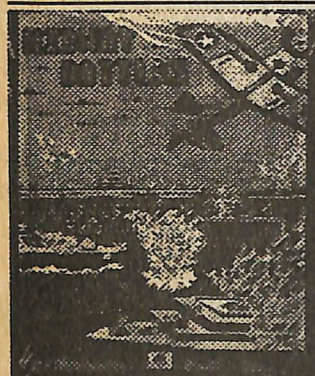

#SD4838 50 MISSION CRUSH Disk by S.S.I. Fifty Mission Crush, a role playing game, is designed to provide you the player, insight into the frustrations, excitement, boredom, and sometimes terror that made up the life of a B-17F pilot in the 8th Air Force from November 1942 to December 1943. You start as a young first lieutenant. You will remain with the 306th bomb group during your tour of twenty-five missions, and then your tour will be extended to 50 missions (if you survive). If you are lucky and prove yourself a resourceful pilot, you will be promoted and decorated. Complete your missions and return home a Brigadier General. . . . \$19.95

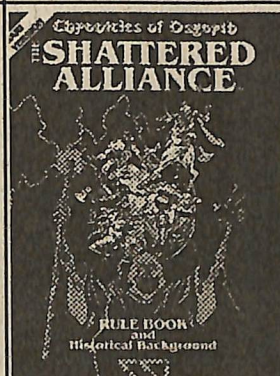

#RX8021 CAVERNS OF MARS CARTRIDGE by Atari. Works with all 8-bit models. Mars Declares War!!! Penetrate the Martian caverns in your Helicon VII advanced fighter armed with twin laser torpedoes, capable of destroying the Creon and Pyxias Rockets used to defend the Caverns. Once you reach Martian headquarters, activate the deadly Fusion Bomb that is the keystone of the Martian defense system and escape back through the Caverns before the bomb explodes!!! **\$9.95**

#SD3837 HOLLYWOOD HIJINX Disk by Infocom. Your Uncle Buddy has passed away and you've inherited his Malibu mansion with only one stipulation - you can only claim your booty if you find the treasures hidden throughout the sprawling beachfront estate. It seems fun at first. But the puzzles you must solve prove that Uncle Buddy was not just kidding around. Claiming the Burbank bundle turns out to be quite a challenge - and it's all in your honor. **HOLLYWOOD HIJINX. \$14.95**

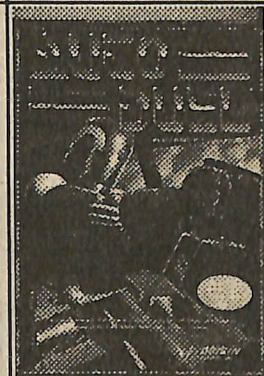

#SA4239 MIDWAY BATTLES Disk. War Game Simulation. Two ways to play!! You against the computer, or two players against each other. Midway has been overlooked by some as just a battle in the Pacific War. But many contend it was the most important battle of all, including the War in Europe. When you consider that the USN was outnumbered 3 to 1, you can see that it was a hinge on history. In this War Simulation with Animated Graphics and Sound, you can replay one of the most important battles in history. **\$12.50**

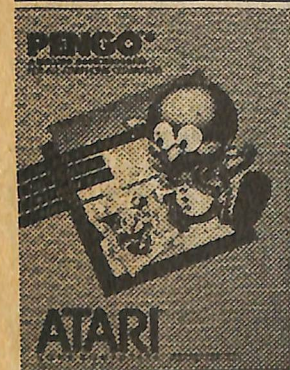

#SD2778 THE SHATTERED ALLIANCE Disk by SSI. The chronicles of Osgorth. This is a tactical level simulation of the First Battles of the planet Osgorth. The game is designed for two players. Located in the Andromeda Galaxy, the planet Osgorth shares with Earth the same primal forests, tall mountain ranges, blue glassy lakes, even a life giving atmosphere. Here the similarity ends, for Osgorth has bred other races such as Centaurs, Elves, the pig-like Hozgits and subhuman Zorgs. Osgorth has now become a land of scattered tribes and fallen realms. Come... see if you can hold the realm together **\$19.95**

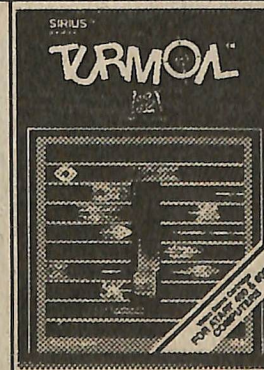

#SD4435 LOS ANGELES SWAT Disk. Set in 1999 Los Angeles. Get your squad together. A terrorist group has taken over the West side of L.A. Get in there and clear the streets. Bring out any hostages you find - ALIVE this time!!! To reach the hostages steer your squad through the streets, trying to avoid the grenades being lobbed at your team leader. Gang members will go after you, snipers will shoot at you. Keep going forward and don't let the enemy get behind you in this fast action arcade style game. **\$7.50**

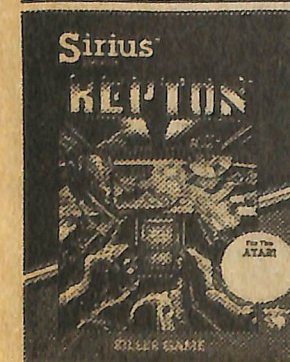

#SA6278 AUTODUEL Disk by Origin Systems. XL/XE only. Requires 64K. A futuristic, multi-disk, fast-paced strategy role-playing game. Enter a world of futuristic freeways where the right of way goes to the biggest gun. Somewhere within the 16 cities and outlaw-infested highways are the clues you will need to complete the ultimate mission. Do you have the tactical skills and hair-trigger reactions required of an AutoDuelist? Prove yourself. Step in the arena where only your driving proficiency and marksmanship can earn you the right to custom-build your combat vehicles. The challenge of AutoDuel awaits you. Are you ready? **\$15.00**

#A2669 PENGU CARTRIDGE by Atari. You've just landed in Antarctica. Your mission is to help PENGU the penguin fight the killer SNO-BEES on a battlefield of ice blocks. Just as in the stand-up arcade game. Pengu must crush or freeze the deadly creatures before they destroy him. The faster he clears them out, the more points you win. For one or two players **PENGU \$9.95**

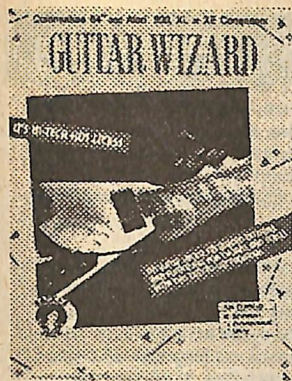

#SD2889 TURMOIL CARTRIDGE by Sirius Software. Works with all 8-bit models. Imagine yourself being attacked from both sides by the most evil creatures ever to fly the unfriendly skies. The only soldering required is the addition of three wire jumpers to the board. **\$19.95**

#A8868 800XL 256K MEMORY UPGRADE Easy to install internal upgrade by Newell Industries. This is the most compatible 256K upgrade on the market today. Fully compatible with **SPARTADOS**. Designed to run **XE Software** the others won't. It comes with **DOS** that doesn't cost extra. And there is even a disk copy program at no extra cost. All you need is a soldering iron, some solder, and eight 41256-15 (150 NS) ram chips to start experiencing the world of ramdisk, and all the XE software designed to use the extra memory. (Ram chips not included, see #A256R below). Don't be fooled by other upgrades. If they don't have Antic banking, they can't run all the XE software properly. Ask before you buy and we think you will agree that the **Newell 256K Upgrade** is the right choice. **\$27.50**

TRANSFORMERS AND POWER SUPPLIES

#A210 REPLACEMENT POWER PACK. Exact factory replacement power transformer for powering **800/400/1200XL Computers, 1050, XF551 and 810 Disk Drives, 850 Interface and the 1010 data recorder.** Replaces earlier "weaker" Atari units. Do not risk damage to your expensive Atari equipment by using "inferior" substitute power packs or return equipment "pulls" as offered by our competitors. These are brand new power packs complete with their original factory box. Atari part number **#CO17945** **\$14.50**

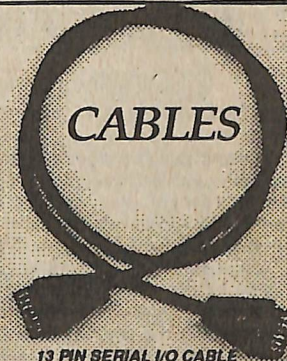

#A2534 XL/XE and XEGS POWER SUPPLY. Factory replacement power supply for **800XL, 130XE, 600XL, 65XE and XE Game System.** Made by Atari. Large numbers of Atari systems have been "knocked out" of service by power pack failure. If the pack completely fails the computer will act "dead" with no power on light. Other failure modes may occur however. Voltage regulation can fail causing high DC output resulting in unstable operation and ultimate total console failure, or AC filter sections can fail causing loud "hum" and/or moving color bands. This failure mode is very damaging to your computer. If these symptoms appear, immediately power down your computer to prevent damage. You should have a spare power pack on hand to substitute if you suspect improper operation **BEFORE** continuing to operate with a bad pack causes expensive repairs **\$25.00**

MISCELLANEOUS ITEMS

#B3908 "TRI-FOOT DOMES" FOR ATARI JOYSTICKS. An analyses of failed Atari joystick has shown that hugh numbers of them eventually failed due to the collapse of the "tri-foot domes". These small domes "pop" each time you move the joystick in any direction or push the fire button. This causes the desired connection to be made on the Joystick PC Board. Oné dome is used for each direction of movement and for the fire button. When these fail, they collapse and no longer "pop". When this occurs, your joystick cannot send the direction or fire button commands to your computer. These "TRI-FOOT DOMES" are merely secured to the Joystick PC Board with cellophane tape! Replacement is quick and simple, cut out the old dome with a knife or razor and tape in the replacement. PACKAGE OF 10 "TRI-FOOT DOMES". \$2.50

#B3999 POWER INPUT CONNECTOR - PC MOUNTED. This is the connector that you plug your power pack into on the following units: 800, 400, 1200XL, 1050, 810, XF551, 1010, 850 etc. Useful for replacement use or for projects \$1.00

#B5744 800XL RF MODULATOR UNIT. Pre-tuned RF modulator for use as a internal replacement part on the 800XL. This "silver can" takes input from the computer and generates a television picture on channel 2 or 3. \$9.50

#B5745 800/400 RF MODULATOR. For use as a internal replacment part on the 800 or 400. Takes input from computer and generates a television picture on channel 2 or 3. Useful for projects or repair \$5.00

1050 DISK DRIVE PARTS

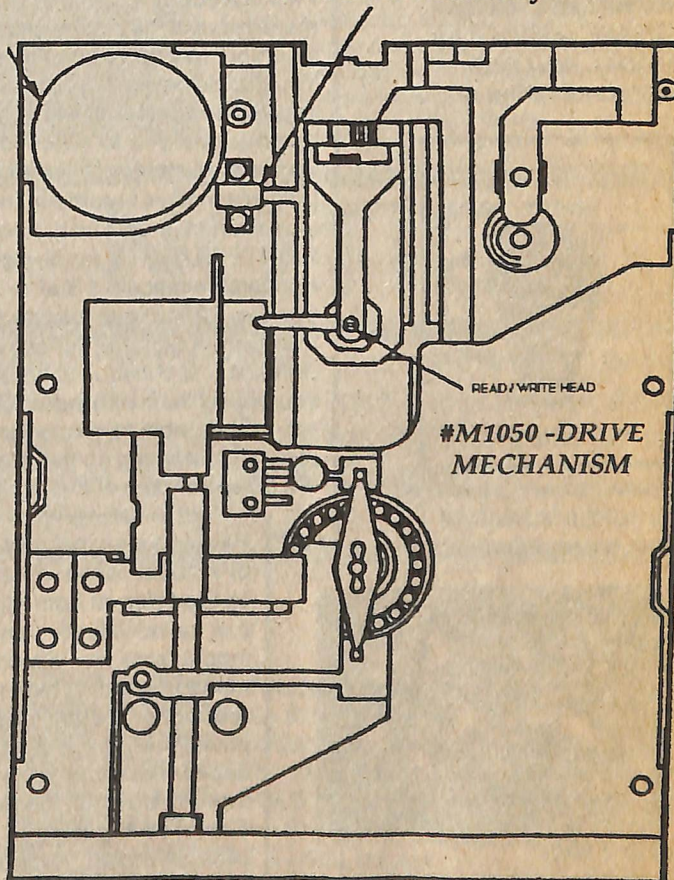

#M150S 1050 Track Zero Sensor Assembly. For TANDON style drive mechanics as pictured below. This is a common failure point on the 1050. Symptoms include head stepping toward the center of the disk on power-up, but never back-stepping to its normal position at the outside of the disk. Easy to replace, merely install the new unit in the EXACT position as the original. \$8.50
SPECIAL #M150-10 10 track zero assemblies for only \$50.00

#A217Q 2793 FLOPPY DISK CONTROLLER CHIP for most 1050 Disk Drives. This hard to find LSI complex component controls most activities of your drive and is responsible for many failures. The 2793 is a 40 pin IC and is located under the metal shield. . . . \$19.50

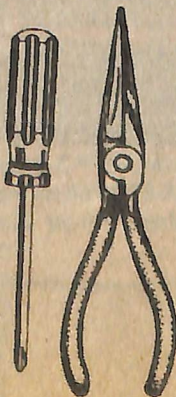

#M1050 COMPLETE 1050 DRIVE MECHANISM (Pictured Below). Factory fresh TANDON mechs. make difficult repairs a snap. Mechanical units are complete with Head, Stepper Motor, Spindle Motor, Drive Belt, etc. New and complete subassembly is ready to plug in. No difficult alignments or adjustments necessary. Includes clear and concise installation instructions. New low price . . . \$39.95

#M1050-2 SPECIAL Save even more when you purchase two new drive mechanics for your 1050 Disk Drive. Two mechanic units for only \$70.00

#SD3932 ChromaCAD™ 3-D Model Builder / Shader - 92 PACKAGE

Program requires 130XE or upgraded 800XL. With the ChromaCAD™ Package you can build and shade any 3-D model you can dream of. You merely start at the bottom and draw the contour lines of the model as you work your way up. Add surface colors to the model as you draw the lines. You decide how many contour lines to use for each model (up to 158) and you decide the elevation of each line. Hugh scrolling 32767 x 32767 graph allows you to construct contour lines as detailed as you want. Supports computer-assisted drawing of lines, circles, arcs and ellipses. Displays models in contour-line form. With this program, you will be able to construct unbelievably sophisticated 3-D models. Now includes PRINTER UTILITY for hi-resolution 3-D Shader print-outs using any Epson / Panasonic / Star or compatible printer. The Model Builder / Shader - 92 Package reflects a new breed of 3-D modelers -- completely free form, sculptured surface - no "extrude" or "sweep" limitations. You will be able to construct models of human heads so accurately that when you display them with the included SURFACE SHADER XE 92 program, you will be able to recognize the subject from the model! All of the pictures appearing on this page (except the top right) are unretouched TV-screen photos of 3-D models rendered by this package.

Package also includes SURFACE SHADER XE 92. You can display any model constructed by the MODEL BUILDER program in surface-shaded format from any point of view, using up to three lights. Lights can be individually varied in intensity and individually set to strike the model from any direction. Models can be displayed in a variety of modes, including high resolution, color and 3-D stereo. Colors can be reassigned instantly without replotting the model. Up to 61K of computer RAM can be used for image display memory. (The screen photos appearing on this page are of models rendered in high-resolution 61K format). Up to ten models can be individually oriented in 3-D space and displayed together to produce one compound multi-model scene. (Terrain model, Airport model, airplanes, cars etc. combined to produce one scene). The program also supports negative, mirror and stepped-tone rendering, automatic clipping, highlighting, ambient lighting and inside viewing of models. The included PRINTER UTILITY allows you to "tile" printer output. Tiles can be assembled (and photo reduced using a copier) to produce amazing results!

GHOST CHASER BY ARTWORX

#SD4938 GHOST CHASER Disk by Artworx. Excellent arcade/adventure style game. In GHOST CHASER you will meet Harry the Ghost Chaser and a host of strange adversaries as you explore the 16 different rooms of mysterious Fairport Manor. Points are scored each time you blast the various Phantom Ghosts which materialize. Scattered throughout the manor are eight keys. As you find and collect these keys, additional doors open allowing you to go deeper and deeper into the manor. Watch out for the many tricky obstacles and above all, avoid anything that moves!!! \$9.95

#SD3938 FORT APOCALYPSE Disk. Great arcade style game. The alarm sounds! As commander of the special task force rescue team you know it's up to you to rescue your men pinned down under enemy fire on some hostile planet. Once refueled you'll have to dodge all manner of hostile attackers, from stealth choppers to air mines to drone tanks that fire all-too-effective heat-seeking missiles from the surface. Next enter endless levels of underground caverns, dodging laser fire to rescue your men. \$7.50

#SD4488 ALIEN AMBUSH Disk. A space age nightmare. Alone in an uncharted galaxy, you're suddenly ambushed by an alien marauder. Instinctively, you fire your lasers. Hitting the attacker, you watch in horror as it splits into two menacing craft. You grow desperate as more aliens careen toward you \$4.95

STRATOS DISK

#SD5828 STRATOS Disk. Arcade style game with good graphics. Not since the devastation wrought during the Eugenics Wars in the late 1990's has a threat of such magnitude existed. Little need be said about the M'korgs; their transformation of fertile, populated worlds into smoking cinders is known throughout the Inner Orbits. Surveillance reports indicate that the M'korg fleet is now enroute to Earth. Due to the gravity of the situation, you must defend earth with the Armageddon Wave Device, which generates the only known form of energy capable of defeating the M'korgs. \$4.95

TUTTI FRUTTI DISK

#SB5843 TUTTI FRUTTI Disk. Get ready for a madcap romp through a fruit-filled jungle where nasty bugs pass their time in a mischievous way - they'll try to EAT you!! You must avoid the little meanies AND collect as many points as possible before you run out of time. The game's object is to eat as many edible items as possible in the allotted amount of time. Once all of the food has been eaten, the game will automatically advance to the next level. A fun game for only . \$4.95

#SB3987 PANZER GRENADIER by S.S.I. Strategic battlefield simulation. Panzer Grenadier recreates the battlefield situations that confronted the German Army in Russia in WWII. You are given a grenadier regiment of the Grossdeutschland Panzer Grenadier Division. Along with the PzGr regiment, you will also be given elements of a panzer regiment and the artillery battalion, both of which were elements of the division. In this simulation format, you will explore the problems and potentials of commanding such a unit in a variety of situations. This time, the decisions are yours. \$19.95

BUG OFF DISK

#SB7739 BUG OFF Disk. Grab your joystick and brace yourself for the battle that'll shake your house to its (hopefully treated) foundations. Your garden has fallen into a Florida sinkhole where weird forces have mutated the inhabiting insects into beastly bugs of destruction, and these guys are after YOU! As the day wears on, your DDT begins to wear out. IF you can spray your way clear to nightfall, the Army will airdrop new supplies of DDT. But the way this insect invasion is going, that's a pretty big IF!! \$4.95

TRIAD DISK

#SB2456 TRIAD Disk. Triad takes that old favorite, tic-tac-toe, and adds the elements of luck, skill, suspense, excitement, and a generous helping of spiffy graphics. As in tic-tac-toe, the object of TRIAD is to win three game squares in a row, either vertically, horizontally or diagonally. You'll have to block your opponent's moves as well. The game board displays nine different 'bugaboos', one in each square. To win the square you must defeat the bugaboo within, using a combination of piloting and sharpshooting skills. The bugaboos will be shuffled from square to square in a random manner with each new game! \$4.95
